**Central Bank Digital Currency (CBDC)** will replace all cash money with a digital currency. The Central Bank will have FULL control over your money. **They will monitor every transaction you make, limit your purchases, freeze, and even delete your funds with the click of a mouse.** CBDC is promoted as a convenience to make your financial life safer. **The truth is that it will mean TOTAL loss of control for all of us.** Your digital funds will be connected to your Digital ID, which will be connected to your vaccine status and social credit score. **The Central Banks are private corporations** - they are NOT run by, or directed by any government.

**Digital ID** is an electronic version of government ID. Under the guise of convenience and security, governments and corporations are implementing **Digital ID**. All aspects of your life will be consolidated and monitored. The government will have **FULL** control & access to your medical & vaccine records, bank records, passport, travel records, licenses and employment records. Having one all-encompassing **Digital ID** will allow any agency to “cancel” YOU with the click of a mouse.

**Digital ID + CBDC + SMARTcity = DIGITAL PRISON**
